

Bring your design dreams to the surface with Caesarstone

Your kitchen surface is the focal point of your home. You trust that it is of the highest quality craftsmanship and made with only the best materials available. Caesarstone consists of up to 93% quartz – one of nature's strongest minerals – and combines beauty with outstanding performance, allowing you to bring your design imagination to life.

Founded in 1987, Caesarstone is the pioneer of engineered quartz surfaces. Its leadership position in the market is achieved through a continuous focus on research and development and technical investments. For three decades, Caesarstone has set new standards for innovation and craftsmanship and continues to set trends in the industry.

5151 Empira White

Soft, refined ebony veining traverses a pure white base, creating an interplay between color, movement and emotion. The uplifting surface is an interpretation of authentic Calacatta marble and its timeless, yet urban look. Reliable and versatile for either residential or hospitality settings, Empira White is inherently elegant. This reinvigorated classic for bars, counters and islands purveys sustainable style with guaranteed longevity.

4043 Primordia

Primordia's cool grey complexion echoes the character of concrete, evoking the provenance of its contemporary feel. Composed across its light grey base, soft mineral accents in off-whites and greys combine with darker veils of grey and brown to reflect the oxidized rusts found in natural stone.

4643 Flannel Grey

Dark grey accents swirl across a soothing medium heather grey base. This versatile neutral can work in contrast to bold colors or can calm a space in monochromes. Flannel Grey is urban-cool when coordinated with rich cabinetry and slate, and when accented by on-trend hues such as turquoise or terracotta.

4044 Airy Concrete

A calm grey base enriched by lively clouds of white and dark grey capture the essence of the interface between water and air pulling the gravity of waves to the surface. Its airy visual textures express depth and connect you to your surroundings. Airy Concrete meets the ongoing demand for industrial design with a softened edge.

4023 Topus Concrete

Rich shades of buttermilk veil a cream-toned base creating a multi-layered effect. The subtle movement of the surface reveals depth and dimension as undertones echo the pastels that are impacting interiors today. Topus Concrete's complexity blurs the boundaries of ancient masterpieces and modern construction.

4046 Excava

Deep auburns, chestnuts and coppers sweep across an unpolished canvas. The surface's excavated look and feel were inspired by the intriguing manufacturing patinas of casting and oxidizing. In Excava, authentic features of rust and concrete are achieved for the first time in quartz. The bold and dynamic visual presence has a warming effect and compliments a wild or urban aesthetic. Find sophistication when paired with matte finishes, taupe tones and mahogany.

Metropolitan Collection

The Metropolitan Collection is crafted beauty reflective of the layers found in industrial art and architecture, highlighting dimensional surfaces and unpolished colors, and bringing texture to the surface.

The new 2018 additions to the Metropolitan collection include: Excava, Topus Concrete, Airy Concrete, Cloudburst Concrete and Frozen Terra. These designs realize the authentic dimensions of manufacturing such as oxidized steel, poured plaster and raw concrete. The colors are inspired by factories and lofts that translate into residential and commercial interiors.

Finish Descriptions

Polished

An elegant and highly reflective surface that is smooth to the touch. Caesarstone's Polished finish emphasizes color and sets the tone for sophisticated spaces with its stunning luster. The sleek surface helps a room appear more spacious, adds luxury to interiors, and boasts remarkable style and endurance. Our standard finish is designed for life, requiring minimal care and maintenance.

Honed*

A satiny finish with low sheen and a natural, less formal aesthetic. Caesarstone's Honed finish exudes an organic appearance with its low light reflection, while retaining a stylish, authentic quality with high design appeal. Smooth to the touch, yet soft on the eye, our Honed finish is in perfect harmony with both classic and modern design approaches.

Concrete*

A lightly textured concrete complexion that adds a sensorial dimension to any space. Caesarstone's Concrete finish has a soft earthiness with low light reflection, similar to Honed but with a tactile effect. The surface evokes a natural feel that brings balance to a room, while delivering a classic industrial presence.

Rough*

This rich, complex, technologically advanced surface offers a compelling tactile effect, while still retaining a smooth profile that is inviting to touch. Caesarstone's Rough finish has a distinctive, coarser look with low light reflection, inspiring a modern industrial vibe.

Our Rough finish is designed to reflect the authentic patinas of industrial materials, the variations in appearance capture real depth and movement, revealing different qualities that make each slab distinct. Applications featuring multiple slabs will experience inherent visual differences.

Because of the unique properties, our photos and website images are not fully representative of the surface. When considering this finish, please order a sample or view a full slab at a retail location.

* Due to the nature of the surface design, it is recommended that common household spills like liquid droplets and rings are dried immediately. Additional care and maintenance will be required.

Edge Profiles

Your surface is not complete without an edge profile to complement your slab selection and space. With Caesarstone, selecting the best fit is easy. The unique properties and durability of Caesarstone quartz surfaces allow for a wide range of edge profile design options.

Many edge profiles are possible, from a standard edge to laminated or mitered edges which create the appearance of a thicker slab. All edge details should have a minimum 1/8" radius on any profile, for both top and bottom edges. For high-traffic areas, 1/4" minimum radius is suggested.

Slab Sizes

Care and Maintenance

Its hard, nonporous surface makes Caesarstone simple to clean. In most cases, soap and water or a mild detergent is all that is required to maintain its luster. Please note that Caesarstone finishes other than polished may require increased daily maintenance due to their unique patterns and finishes. Since there is more exposed surface area with these finishes, metal marks, fingerprints and other signs of daily living will show on these materials.

Benefits

Caesarstone quartz surfaces are the ultimate combination of nature and technology. Nonporous, scratch resistant and highly resistant to stains, Caesarstone retains its beauty without sealants or waxes and is practically maintenance-free.

Surfaces That Go Beyond the Kitchen

Caesarstone surfaces are not just for kitchen countertops. They are popular for use around the fireplace, on featured walls and in the dining room to add a touch of style and sophistication.

The surfaces are ideal for furniture pieces like coffee tables and entertainment units, and they are perfect for wet areas, like bathrooms and wet bars, due to the nonporous nature of the material.

Certifications

Caesarstone is committed to sustainability, quality and meeting health standards. Caesarstone quartz is also the only countertop manufacturer to hold the Good Housekeeping Seal.

“

Caesarstone earned the Good Housekeeping Seal through evaluation by our Research Testing Institute and was found to be a product that will deliver excellent results and performance. Earning the Seal by passing our engineering and consumer usage evaluations speaks volumes about the high regard Good Housekeeping holds for the Caesarstone product.”

Sean Sullivan

Associate Publisher for Good Housekeeping

Additionally, Caesarstone quartz meets American Greenguard's exacting standards, is created by the National Sanitation Foundation for laboratory, healthcare facility and food preparation safe surfaces, and ranks high with the United States Green Building Council.

This environmentally-responsible attitude extends from production to product, with several new colors featuring recycled content.

Our mission is to preserve the planet by creating sustainable products. Caesarstone has also pioneered environmental and sustainability standards, such as recycling 97% of water used in manufacturing and collecting dust from shipping, handling, production, and processing.

Designed
for life

A Culture of Quality— Backed by a Lifetime Warranty

As a leader in our industry, we are committed to the highest quality of our products' technical characteristics, sustainability and certification, which allows us to offer you a Caesarstone Lifetime Warranty.

You can have peace of mind that your Caesarstone is going to last even in high-traffic areas.

Customer Service

When considering investing in a premium quartz surface, there is one thing you should know: The surface you choose is only as good as the company that stands behind it, especially when it comes to customer service.

At Caesarstone, we know that once the installation is complete, our job has just begun. Your satisfaction and service experience are very important; you can count on us.

Caesarstone USA, Inc. will warrant, from the original date of installation, material that fails due to any manufacturing defect when fabricated and installed by a Caesarstone Certified Fabricator.

We'd love to hear from you.
